Brief CV

Designations:

- Consultant, Division of Paediatric Endocrinology, Department of Paediatrics, Khoo Teck Puat - National University Children's Medical Institute, National University Hospital
- Assistant Professor, Department of Paediatrics, Yong Loo Lin School of Medicine, National University of Singapore

Qualifications:

MBBS (Hons) (S'pore), MMed (Paeds) (S'pore), MRCPCH (UK)

Dr Cindy Ho is a paediatric endocrinologist at the Khoo Teck Puat-National University Children's Medical Institute(KTP-NUCMI) Singapore and an assistant professor at the affiliated Yong Loo Lin School of Medicine(NUS) Singapore.

In 2014, she obtained the Ministry of Health Award(AMDA) for the fellowship programme at The Royal Children's Hospital, Melbourne where she undertook training in late effects of childhood cancer and fertility preservation techniques. She also went to the Peter MacCallum Cancer Institute where she learnt from many adult survivors of childhood cancer.

She is very passionate about improving the care of childhood cancer survivors and runs the dedicated paediatric late effects service in her hospital and is seeking to establish a fertility preservation service for children prior to cancer treatment.
