Professor **Sonir R. Antonini** is a Full Professor of Pediatric Endocrinology and currently, he serves as the Head of the Department of Pediatrics at the Ribeirão Preto Medical School of Medicine - the University of São Paulo in Brazil.

He is a Translational Researcher in endocrine diseases focusing on adrenal, neuroendocrine, and developmental disorders. He is strongly committed to undergraduate and graduates medical education, including his role as Supervisor of Master in Science and Ph.D. students and in the training of pediatric endocrinology residents. He has substantial experience in research grant coordination and coordination of a Laboratory of Molecular Endocrinology. He is a Lecturer at National and International Scientific Meetings.

Professor Antonini is actively involved in the Latin American Society of Pediatric Endocrinology (SLEP) as the coordinator of the Continuous Education Committee, including the summer and winter schools' organization. He is also the Director of the Pediatric Endocrinology Department of the Brazilian Endocrine Society (SBEM).
