
ASSOC PROF FABIAN YAP, SINGAPORE

KK WOMEN'S AND CHILDREN'S HOSPITAL

Fabian Yap is a Senior Consultant Pediatric Endocrinologist with more than twenty years of experience as clinician, educator and investigator with the Singapore Health Service. Fabian dedicates his time teaching and managing childhood growth and puberty, and studying why metabolic diseases start early in life.

He is Clinical Associate Professor at the DukeNUS Medical School and Co-lead for Pediatrics at the Lee Kong Chian School of Medicine in Singapore. He is a strong believer in “effective teaching” and was awarded the NUS Dean’s Award for Teaching Excellence. He is a Theme PI for the Growing Up in Singapore Towards healthy Outcomes (Gusto) birth cohort study.

To integrate clinical, teaching and research interests, Fabian is involved in designing new models of care and learning that links preconception with pregnancy care and maternal-child health, so as to prevent non-communicable diseases during the earliest stages of life.
